Skills.

HTMLCSSSASSBootstrap

TailwindJavascriptViteVue

PHPMySQLLaravelGit

PhotoshopIllustratorInDesign

BlenderFigmaPremierePro

AfterEffects

Hobbies.

As a **self-taught musician**, the experience of playing in various bands has allowed me to learn how to collaborate effectively to achieve common goals.

Languages.

- Italian - Native
- English - Professional

Experience.

Boolean (Jan 2024 - May 2024)

Jr Full Stack Web Developer Trainee

- Development of a Vue/Laravel portfolio with GSAP animations and a multi-step contact form. The site communicates with a back office responsible for creating, managing, and delivering the resources to be showcased.
- Team project development of a Vue/Laravel food delivery web app. Users can search for restaurants by type, while restaurant owners can register and add dishes to their menu. I actively contributed throughout various stages of the development, including implementing the payment system and the persistent shopping cart using Local Storage. [See it on GitHub](#)
- Development of a Vue messaging app with features including message sending, random responses, timestamps, message deletion, chat search, and a pop-up menu for adding emojis. [See it on GitHub](#)

Extra Projects

- Replicated the layout of the iPhone showcase page, integrating the 3D model using Vue and TresJs. [See it on GitHub](#)
- Developed a Vue application to monitor the current and future weather of selected cities by querying public APIs. Favourite cities can also be saved using Local Storage. [See it on GitHub](#)
- Developed a dictionary app in Vue with font and theme switching, using an API for meanings and integrating pronunciation audio. [See it on GitHub](#)

ArtMassaStudio (Mar 2015 - Dec 2023)

Graphic Designer / Video Editor

- I collaborated with numerous companies, focusing on building their visual identity and managing advertising campaigns.
- I collaborated with an american startup, providing internal corporate graphic services and developing promotional materials for various products.
- I created graphic design materials for marketing purposes, managed social media, developed website resources and produced promotional videos.
- I created 3D renderings for exhibitions, museum installations and architectural projects.

Education.

Boolean (Jan 2024 - Jun 2024)

Master Full Stack Web Developer

Intensive 700-hour full-remote course during which I attended theoretical and practical lessons and learned the basics of programming.

FreeCodeCamp (Jun - Jul 2023)

JS Algorithms & Data Structures

JavaScript Fundamentals
Object-Oriented Programming

Udemy (Jul - Aug 2023)
